

Physical Education

Our PE Team is led by Robert Ablitt and consists of 10 teachers. As a Department we aim to improve the teaching and learning of practical and theoretical elements of PE through a continuous Year 7-11 curriculum.

Year 7, 8 & 9 students participate in 3 or 4 lessons a fortnight and Core Year 10 and 11 classes participate in 3 lessons a fortnight. Students are currently following schemes of learning in a range of sports, such as football, netball, cricket, handball and table tennis. Our schemes of learning are written to ensure all students are equipped with the necessary skills to successfully access the GCSE curriculum. Year 9 students can experience GCSE PE and Cambridge National Sports Studies before choosing their options, following a more exam tailored programme of theory lessons, assignment writing and practical lessons. In years 10 and 11 we offer GCSE PE and the Cambridge National Sports Studies course.

Extra-Curricular PE is a vital area for the department which our team enjoys and excels at. We have success at District, County and National level and offer a wide breadth of teams and clubs. The expectation is for all members of the PE team to commit to the extra-curricular programme.

The Sports facilities at Brookfield Community School consist of a Sports Hall, Gymnasium, Fitness Suite, MUGA, Courts and extensive playing fields. Each teacher is allocated a lap top and the department has access to iPads to aid teaching and learning. The PE staff room is located in the Sports Hall.
